## Launching REMI's Plus range of laboratory products

**Our News Bureau** - *Mumbai*

REMI recently launched its new Plus range of laboratory equipment. The event was held in Mumbai at the Kohinoor Park. It was an event professionally hosted by marketing and sales team. A warm welcome and acknowledgment was given by the chief executive officer Sunil Saraf, followed by an elaborate introduction on the new range of products. Technical details, feature and benefits introductory brief was shared by business development Head, Ramakrishnan. This was followed by cocktails, dinner and a beautiful ghazal performance. REMI will be conducting similar conferences across nine major cities of India like Delhi, Bengaluru, Kolkata, Ahmedabad, Chennai, Hyderabad etc.

A leading laboratory instruments brand for over five decades, Remi is winning the minds of Indian customers is matching up to the level of their expectations. The Plus range of laboratory products for upgraded needs of today's laboratory setups are aesthetically designed models equipped with high performance, leading technology, user ease and safety will help customers to have better control over operational processes in the laboratory, at the same time reduce chances of errors.

The launch of Plus range is aimed at serving high end premium lab products users. The idea is to serve as Indian substitute for imported technology for Labequipment and offer the same at affordable costs. The Plus Range of Remi includes magnetic stirrers, laboratory stirrers, cyclomixers, compact refrigerated centrifuges, refrigerated centrifuges, orbital shaking incubators, cabinets, humidity and stability chambers and seed germinators.

REMI is a global laboratory and blood banking instruments manufacturer and exporter. The world class quality products and its talented team of professionals make it a premier player in the country, with a presence in 50 countries across the globe. Today, REMI is the industry leader in manufacturing laboratory/ magnetic stirrers and centrifuges, and blood bank refrigerators / freezers catering to over 50 per cent of the total Indian demand. The manufacturing facilities adhere to WHO-GMP guidelines, with ISO 9001-2008 certification for design, manufacturing and supply of laboratory and blood banking Instruments and SO-13485:2003 for medical devices. All products are CE marked.
